EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning (2023 - 2027)

GPA: 8.8 / 10.0 | Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Machine Learning, Deep Learning

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, JavaScript, TypeScript, SQL

AI & Machine Learning: PyTorch, Scikit-Learn, OpenCV, Pandas, NumPy, SciPy, Matplotlib

Web & Cloud: FastAPI, React, Next.js, Tailwind CSS, PostgreSQL, Docker, Git, GitHub

PROJECTS

1. Chicken Farm Pro - Enterprise Farm Intelligence Platform

- Architected full-stack Next.js and Prisma system with Supabase backend and Google OAuth 2.0 authentication.
- Built ChickAI assistant using Google Gemini API to analyze flock mortality patterns, reducing diagnostic delay by 45%.
- Implemented real-time financial tracking and automated PDF report generation for 500+ operational records.

2. Real-Time Vision & Object Detection Pipeline

- Engineered high-throughput video processing pipeline using OpenCV and deep learning models.
- Achieved consistent 50+ FPS webcam inference with low-latency bounding box tracking and confidence scoring.
- Benchmarked frame throughput and optimized memory buffers, reducing latency by 30%.

3. Hand Gesture Air-Keyboard & Virtual Controller

- Developed a contactless computer vision interface utilizing MediaPipe hand tracking and PyAutoGUI.
- Built dual-hand spatial gesture recognition for virtual typing and mouse cursor navigation without physical hardware.

ACHIEVEMENTS & CERTIFICATIONS

- Active open-source contributor with 10+ software projects on GitHub.
- Finalist in College Technical Hackathon for autonomous computer vision prototypes.
